based on 20th century ...

Without content, students may engage in problem-solving or team-working experiences that fall into triviality, into relevance without rigor. Instead, the 21st century learning paradigm offers an opportunity to synthesize the margins of the content vs. skills debate and bring it into a framework that dispels these dichotomies." Thus, skills are not taught in an isolated or haphazard manner but instead are incorporated into content in meaningful ways that allow students to build upon their ...
