inventory management are terms that are sometimes used interchangeably, but there are critical differences between these functions and the software used to improve each of these applications. Both types of solutions are focused on improving resource optimization and reducing costs.

### **The Difference Between Inventory Management and Asset Tracking**

Asset inventory management is the way the organization monitors the assets it owns to track and analyze issues such as physical location, maintenance requirements, depreciation, performance, and eventual disposal of the asset. Implementing a robust way of managing your asset inventory is a critical part of your company's accounting processes.

Asset inventory management is the process by which companies account for the location of previously acquired durable goods. Depending on the company, both capital and non-capital goods of value should be tracked on an individual level. Like many areas of the supply chain, asset inventory management continues to evolve.

### **Asset Inventory Management - Costs, Benefits and Future**

The difference between inventory and asset management is critical when running your business. Inventory management focuses on monitoring parts and products companies have moving in and out of their stores, where asset tracking focuses on keeping track of items or “asset inventory” an organization needs to function properly.

### **Wastes ...**

The key to managing inventory and fixed assets is to adopt a robust tracking system as part of your accounting process. A tracking system enables you to calculate depreciation, monitor maintenance needs and schedule repairs on your fixed assets. For inventory, it helps you avoid running out of stock and can even control theft of your goods.

### **Fixed Asset Inventory: Inventory vs Fixed Asset - QuickBooks**

Keeping an IT asset management inventory will help you make your work flow more efficient and bring your company a greater ROI. While trying to track all of your assets can seem like too big of a task to take on, the benefits of having an organized system far outweigh any work you'll have to put into the process.
