Bonsai trees can burn if taken from a shady location to a sunny location so care should be taken to gradually increase their light exposure. If you do not have a window or light source that provides an east, west or southern exposure, be sure to select a bonsai tree that does well in lower lighting conditions.

### **BONSAI BASICS - Central Florida Bonsai Club**

The most important part of taking care of your Bonsai trees is watering. How often a tree needs to be watered depends on several factors (like species of tree, size of tree, size of pot, time of year, soil-mixture and climate), indicating that it is impossible to say how often you should water Bonsai.
