The CACI Microlift has a choice of two treatment programs and three treatment intensity levels. The Toning Program (5 minutes) helps to firm and tone the facial muscles. The Wrinkles Program (5 minutes) helps to reduce the appearance of fine lines and wrinkles.. For best results use both Programs as a complete 10 minute facial routine.

Treatment Guide - CACI Shop

Micro-current treatment has been available in the U.K. for cosmetic purposes since the early 1990s with the introduction of the CACI (Computer Aided Cosmetology Instrument) which became known as the original "non-surgical face-lift". Treatment claims include the reduction of wrinkles, an improvement in the overall shape of the face, a better complexion and improvements in the appearance of stretch marks and scar tissue.
