Nivaldo Tro's Chemistry: A Molecular Approach presents chemistry visually through multi-level images—macroscopic, molecular, and symbolic representations—to help students see the connections between the world they see around them, the atoms and molecules that compose the world, and the formulas they write down on paper. Interactive, digital versions of selected worked examples instruct students how to break down problems using Tro's unique "Sort, Strategize, Solve, and Check ...

Tro, Chemistry: A Molecular Approach, 5th Edition | Pearson

To understand the substances around us, first we must know how the atoms and molecules that composed them. This process is called the central goal of chemistry. It says that how the matter behaves if the atoms or molecules are changed in the composed of matter.
