Fender now owns Groove Tubes, so it could be anything. To me, it doesn't matter what Fender chose to do, or the part numbers they apply to their tubes. If I were forced to guess, I'd think the 12AX7s earlier in the preamp are selected for lower noise/microphonics.

Fender '68 Custom Princeton Reverb questions | The Gear Page

The owner's manual for the Fender '65 Princeton Reverb is pretty basic, and contains minimal useful information. Above is what the owners manual tells you about the vacuum tube complement. Notice that while the manual gives you the order of the tubes left to right, it doesn't specify what the functions of the tubes actually do.
